Russ Lucas: Not feasible but Veterans there guarding

D/C Bell: this is a priority, maybe can do @ right-

Bernier: Will reassess & maybe use other type of fencing
@ war memorial

Chief: ~~that~~ SAT when first issue @ War memorial
military was involved @ NRC. Can that
occur again

Russ: never member of military @ NRC as long
as he's been @ NRC. They will not engage

Chief: Up to us to make plan re fencing @ War memorial

Bernier: fencing there now could be detrimental to us.

①

Chief: any update on suspect of war machine
dancer?

D/C Bell: not identified yet,

Chief: let's continue to do our best to ID her,
especially w/ Susette West.

Russ: intel update? - no

Rob Drummond: Conveys from all we have now. Better more
intel: looking if can be pulled from stores locally.

Bernier: Traffic plan good interim ad hoc plan.
If more robust plan needed, still working on it
& provide mid week

Chief: 1 plan was implemented & was successful
Advised D/C Bell that not his responsible for
Intel information.

Chief: getting offers from companies to help us,

think this is good idea & also to help w/
other areas.

D/C Bell: focus on that tomorrow

Bernier: PLT, Rob Drummond on this.
following national framework on PLT
which our plan is based on.

Drummond: PLT always been following that model,
same as CPP

Chief: Not what he has heard from PLT team
& PLT Supervisors. As of latest PLT member
advised he had not been engaged/integrated

~~re Bell~~ ^{Barrier}: Will go down to talk to PCT team
this week & give pep talk & rebuild
Table integration: Good meeting w/ Rump
Warhats where 1300 officers sitting around.
We need them to engage. Strong ORP
presence @ command table as well.

D/C Bell: How did we have 1300 deployable Rump officers?

IC: Marty Grady called Ernesto & confirmed no one
was available to be deployed.

Barrier: Get them talking

Chief: Carson Party & team ^{will} provide brief
everyday @ 9am re avail deployable resources.
This will be single source of truth.

Barrier: Debbie to be change of staffing

D/C Bell: Talk our actions; single source of truth
Debbie needs to manage staffing of what we have

Barrier: Chris Rheanne needs to ensure w/ him & Debbie
that that is happening.

Chief: Beyond ORP, Rump, all chiefs memo, flurry of
responses, is this being managed? How many
ORP, Rump & municipal are deployable daily

D/C Bell: ~~Integrate~~ ^{PR} amalgamation of resources, is that
not something for NOC? Debbie to ensure they
are placed & staffed.

Barrier: "Party festival" no one's serious, won't be able
to take action because of this party mode.
But this week, you & PCT & Intel & uniform with ③

... go in to shrink groups hanging around, negotiate
4 figure out how to reduce footprint,
include Fire & Bylaw as we do this.

D/C Bell: in next 24 hr cycle, include Cemetery ~~plan~~

Bernier: may need to look @ another type of fencing.

Chief: ~~the~~^{we} asks about the new "laws" coming into
effect how are these being included in plan.

Bernier: City wide injunction, not specif - to cemetery.

of RCMP bus, sworn in. Advised them
thru on backlog, 421 RCMP officers

Asked about #s in general. Working on this
she wants # of services deployed by shift, not an option.

Briefing w/ PM discussed.

Important that we get something out soon (#s)

Chief: ~~officers~~ ^{we} # of officers, internal & external
are always different from different sources.

How many officers in Ottawa are deployable
internal & external. Only #s he needs to know.

This # needs to only come from Carson.
